

Protect your child right from the start

Vaccines

	Birth	2 Months	4 Months	6 Months	12-18 Months
Hepatitis B	✓	✓		✓	
Diphtheria, Tetanus, Pertussis		✓	✓	✓	✓
Haemophilus Influenzae B		✓	✓	✓	✓
Poliovirus		✓	✓	✓	
Pneumococcal		✓	✓	✓	✓
Measles, Mumps, Rubella					✓
Varicella					✓
Hepatitis A					✓
Rotavirus (drops)		✓	✓	✓	
Influenza				Each flu season starting at 6 months	

Some of these vaccines may be given in combination, meaning fewer shots.

Vermont's immunization schedule is compatible with the current recommendations of the Advisory Committee on Immunization Practice (ACIP) of the Centers for Disease Control and Prevention (CDC), the American Academy of Pediatrics (AAP), and the American Academy of Family Physicians (AAFP).

For more information, please call the Vermont Department of Health Immunization Program **802-863-7638**, or visit our website at **HealthVermont.gov**.

2010

Immunization is the single most important way parents can protect their children against serious diseases.

Review this schedule to see if your child is up to date.

Call your health care provider to schedule an appointment.
